

FIREWIPES®

YOUR FIRST LINE OF DEFENSE IN DECON

INGREDIENTS

Ingredients

Firewipes® is dedicated to providing our customers with a quality product that contains only quality ingredients. Great care and consideration went into the formulation of Firewipes to ensure there were no harsh detergents, drying agents and/or carcinogens added. This makes them safe to use on all external dermal areas to aid in the cleaning and removal of soot and other potential carcinogens.

Firewipes products also meet all U.S. FDA regulations and are manufactured under cGMP, ISO 9002, ISO 14001 and is EcoCert. This ensures the safety and consistency of each product.
